Grant wants to revisit this later as we need her to get in and get more people in to help her. Denny worries about the EMS side of things and Stacey Assures him that the EMS is up to date with billing/staffing and can handle it. Denny wants to make sure that neither service to suffer and that Stacey doesn't take on more than she can handle and that she asks for help.

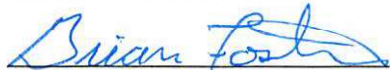

Denny would like to get ahead of the circulating news in town and make a post on Facebook letting the community have patience with and that we are still here.

Grant would like us to utilize IT to help us get back any information needed and knows it may incur an additional cost. Same as with the attorney.
